## HUSBAND SLAYER IS TORTURED BY HORRID VISIONS

SLAIN HUSBAND RISES TO REPROACH HER; CONDITION SERIOUS

SAN FRANCISCO, March 18.—Constantly confronted with the form of her murdered husband and that of Mrs. Marie Miller, the "other woman," at the trial, Mrs. Millie Brown, now being tried for killing Archer C. Brown, is wearing her life away in a constant night vigil for the appearance of her husband, who died by her hand.

Often during the night prisoners and wardens in the Alameda county jail are startled by the sudden cry of the "little woman in black" to the shades of the man on whom she lavished all her love and killed.

"Archer, Archie dear," is the call heard ringing frequently through the corridors of the jail, night and day, from Mrs. Brown's cell, followed only by low sobs.

According to the jail matron, Mrs. Hattie White, her charge is constantly tortured by visions of her dead husband.

Mrs. Brown sleeps little and has been made to take opiates almost every night to produce sleep and drive away the forms that torture her brain with remorse and fear.

She eats little, only a cup of coffee or tea and a biscuit now and then, and crouches alone in her cell. She never looks at or speaks to the other women prisoners in the jail during the times when freedom of the corridors is allowed.

The trial is coming to a close, and as it nears the verdict of the jury, with constant repetition of the ghastly word "murder" and the rehearsal of the grisly details of the killing in front street and the home tragedy that led thereto, Mrs. Brown's pining nemesis becomes more active.

Increased medical attendance has been given her and a careful watch is being kept over her for fear that she may not ever hear a verdict from the twelve men in the jury box.

## WANT HEAVY TAX ON SUBSTITUTE FOR REAL BEER

DECREASED CONSUMPTION IS A SERIOUS MENACE TO WELFARE OF COUNTRY

(By Associated Press.)

BERLIN, March 18.—Bavarian statesmen are alarmed over the falling-off in revenue from the beer tax. They have made repeated demands in parliament for a heavy tax on beer substitutes to encourage the consumption of the real beverage. Government Councilor Speck, the financial expert of the dominant Centre party, has proposed a "law against the evils of thinning beer." The receipts from the tax on malt, he points out, have been steadily falling off late years, owing to the decreasing consumption, but according to Herr Specker and other experts, this stands in no proportion to the temporary falling off in the consumption of beer, but is due rather to the use of less malt per cask in the originally rich and creamy Bavarian brews. His law, it is pointed out, would save the reputation of Munich's famed product, check the growing deficit in the Bavarian budget and help out the Bavarian farmers, who complain of the exceedingly poor market for their barley.

McCALL SWITCH COMPANY OFFERS STOCK FOR SALE

George Abernethy, formerly well known in connection with leases at Round Mountain, has opened an office at Room 3, Butler building. He represents the Call Switch Company of Denver, which is making a device for railroad switches that is said to be superior to anything of the kind in the country. The company is operating a factory and it is the desire of the management to increase this to meet growing demands. Mr. Abernethy is offering stock in the McCall company for sale.

## AMUSEMENTS

BUTLER THEATER

At the Butler theater this evening a very interesting program will be produced on the screen. "The Mystery of the Dover Express," being the second number of the "Chronicles of Cleek," the Edison detective story; "The Dilemma," a Biograph drama; "Before the Last Leaves Fall," a Lubin drama, and a funny Vitagraph comedy in which John Bunny, Flora Finch, Willie Van and Lillian Walker take part. "The Misadventures of a Mighty Monarch." Tomorrow, Pathe Weekly and a Lubin drama in two parts, "A Question of Right." Friday, "Sapho" in six reels, with select music.

PASTIME THEATER

Developments at the "Pastime" have been startling this last week. An administration of high class pictures seems to have revealed the

generously circulated idea that the new show house would be in the forgotten realms before seven suns had blazed to the east and sat down at the west.

Tonight the "Mutual Weekly," containing a summary of world's happenings truly worth mentioning. The Mutual Weekly is pleasantly different. "A Healthy Neighborhood," Keystone comedy, will volunteer a spring fever antidote. The Broncho Film Company highly recommends "The Reaping," a two reel drama possessing a quality representative of class and true merit.

It is of exceptional value at the price it's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

**Drink Schlitz in Brown Bottles**

Read what two eminent scientists have to say about light and its effect on beer in light glass bottles.

"In recent years the observation has been made that the rays of sunlight effect a chemical change in beer. For this reason the use of beer bottles blown from colorless glass is diminishing, bottles blown from colored glass being chosen; the amber colored bottles, which, when held towards the light, show the color of light beer, are particularly to be recommended."

Extract from *Die Praxis der Bierbrauerei*. Published by G. E. Hubich, 1893—page 786.

"It appears that chemical changes are produced in the beer, which attains an exceedingly unpleasant taste and a disagreeable odor."

Extract from *Lettres on Brewing* (Vol. 5) published by Hantke's Brewers' School and Laboratories. Dr. G. Thevenot.

Schlitz, when poured into your glass, is wholesome and pure as a crystal spring.
